

PREFERENCE LIST FOR NLUs (UNDER CLAT)

While ranking any college or university, various aspects are taken into consideration like academic program, research culture, placements, infrastructure, alumni base, preferences by students in previous years and others. On basis of these consideration, we have placed colleges in the following manner.

However, we have noticed that there are some colleges which are equally good. Hence, we have tried to create a balanced list which ranks colleges. In this list, we have created Seven Blocks and placed colleges equally good in one block. Although Top Five remains the same, for the other NLUs (within the same block) the candidate has to weigh in many factors before arriving at a decision. Some of them of these factors are:

- Residence
- Any guardian or known person residing at that place
- Fees
